# TESTIMONIALS

“

It was my first time attending AMWC Asia and I flew from the UK in order to learn more about the Asian approach to aesthetic and regenerative medicine. The programme was varied and interesting and I learned a lot from the lectures I attended. The venue was spacious and well-designed with a wide selection of exhibitors too. I came away from the conference feeling inspired and motivated, which is essential when it comes to growing professionally. To my UK and European colleagues, I highly recommend you consider attending AMWC Asia 2025.

The broad coverage of topics in aesthetic and medical dermatology really makes this AMWC ASIA-TDAC the best international conference among similar meetings. Speakers from all over the world provide so diverse opinions in clinical practice from different background as well as personal useful experience and pearls. These precious speeches truly activate and inspire the audience of great models in real world practice.
